## WEBSITE OVERVIEW

Super-Pharm's online store is a large and easy-to-use shopping website. It is similar to Amazon but focuses on health, beauty, and lifestyle products. As the top retailer in Israel, the site has many items like medicines, personal care products, cosmetics, baby supplies, and household goods.

The website also offers special options like buying from external sellers. You can find cars, insurance plans, computers, and even government services.

Super-Pharm makes shopping simple with a clear design, easy search tools, and smooth navigation. Based on our personal experience during the project, we discovered unique features like live chat with a pharmacist and tools for checking skin health - These features make the platform feel like shopping in a real store.

## TESTING SCOPE

We thoroughly tested the Super-Pharm website, starting with 'End to End' functional testing. This included placing and canceling orders, updating personal details, and verifying smooth system responses. We reviewed terms of use, tested product categories and information, and checked tools like the skin diagnostic tool, ensuring it worked well on Android and iPhone. Additional testing covered the survey feature and the 'קופת חולמים נלויות' section under 'בית מרקטת שלי'.

On mobile, we tested features like interactive banners, rotating reviews, screen orientation (portrait and landscape), and gestures like pinch-to-zoom, swiping, and scrolling. Compatibility with Safari and Google Chrome on both Android and iPhone was confirmed. Overall, we validated the website's core functions across 15 main areas and 30 sub-areas.

## EXIT CRITERIA

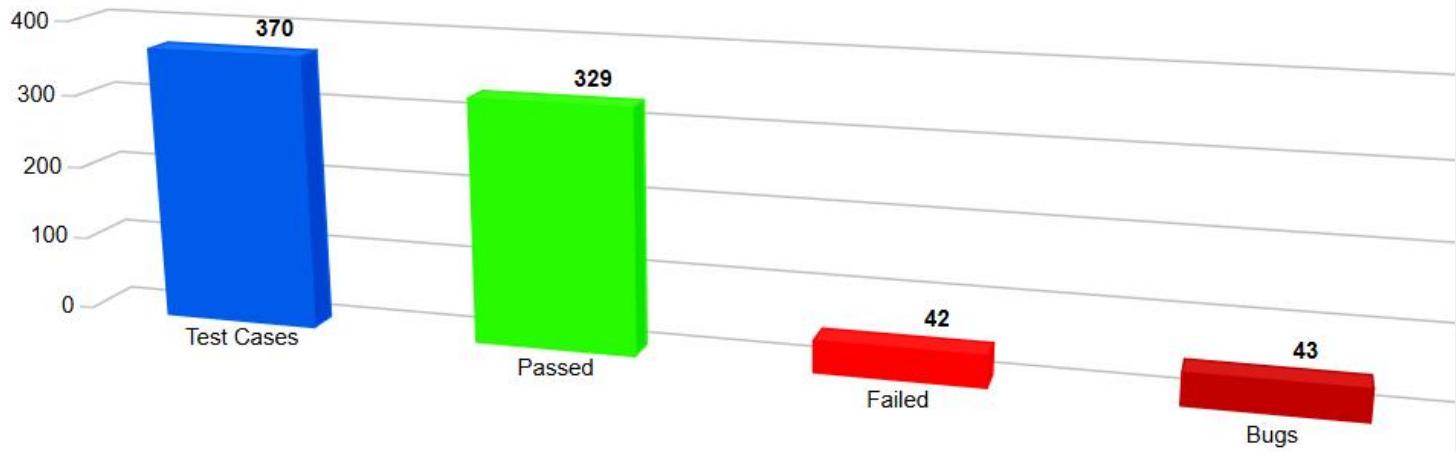

More than 90% of the tests have been completed. There are no functional bugs with high severity, including Critical or Show Stopper issues. There are also no Major functional bugs without a workaround or high-priority bugs. All open bugs are of low severity, and no serious bugs have been reported in recent days.

## CONCLUSIONS

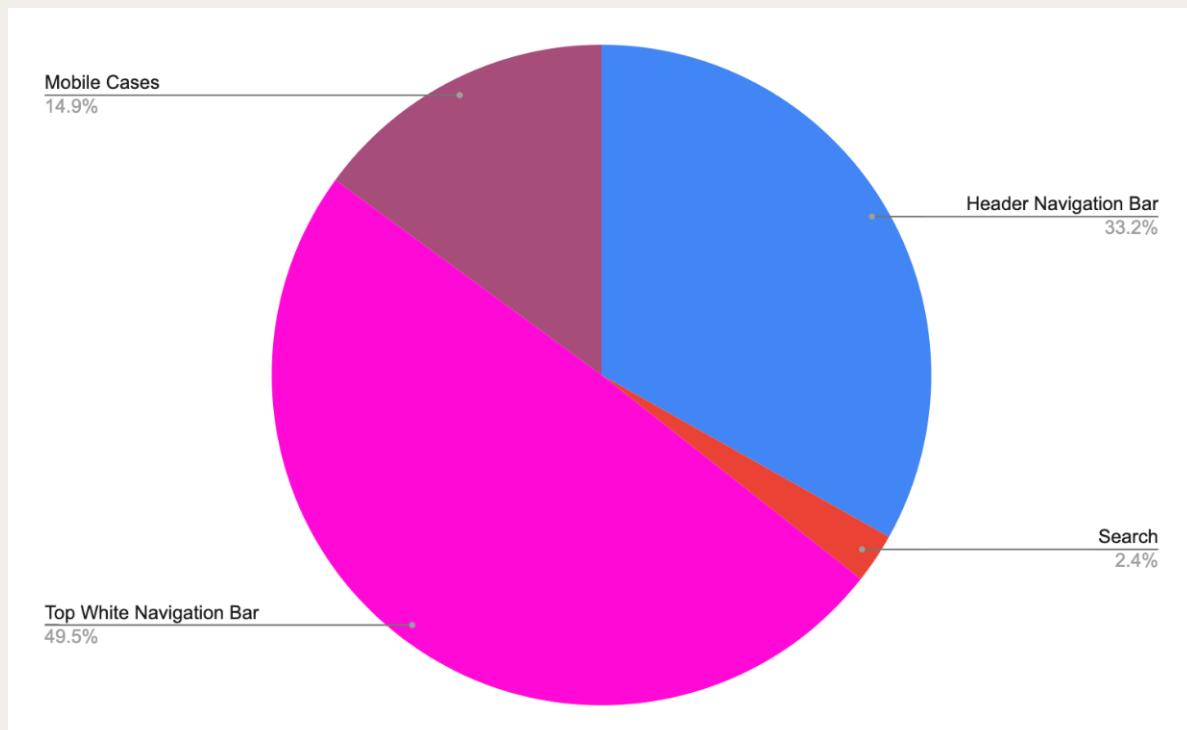

Based on the testing, the website is functioning well and **Ready for launch**.

Although 43 defects were found, none are major issues that would affect the overall user experience. The site provides a smooth and positive shopping

We tested the Super-Pharm website using **TestRail** for the entire testing process. The system helped us manage and document the tests, track progress, and ensure all test scenarios were executed correctly. This made the process much more efficient and organized.

The image contains two screenshots of the Super-Pharm website. The top screenshot shows a banner for 'VERSACE' featuring a woman in a pink dress holding a perfume bottle. The banner includes text: 'VERSACE', 'קונים בשם מבית ורוצ'ה', 'ב- 199 ₪ ומעלה ומקבלים', 'תיק אופנתי לאישה או לגבר בתמונה!\*', and a 'רכישה' button. A red arrow points from a callout box to the banner, stating: 'Clicking the 'VERSACE' banner should redirect you to a page with relevant products.' The bottom screenshot shows the result of clicking the banner, which is a search results page for 'VERSACE'. The search bar shows 'search?q=popularity&cat=Promotions:3966858'. The results area displays a message: '0 results' and 'לפי תוצאות חיפוש לא ניתן למצוא מוצר'. A red arrow points from another callout box to this message, stating: 'No items are displayed related to 'VERSACE''. Both screenshots show the website's navigation bar with categories like NEW, Lifestyle, OPTIC, Beauty, etc.

## Description

### Steps to Reproduce:

1. Open the link <https://shop.super-pharm.co.il/> and log in to your existing account using your email and password.
2. Click on your username in the top right corner
3. Click on "Update my details"
4. Scroll down and click on "נוסחת כרטיס אשראי/כרטיס'o" lifestyle
5. Enter an incorrect or invalid expiration date for a credit card (e.g., 13/25).
6. Fill in the rest of the credit card details (e.g., card number, CVV).
7. Submit the form.

### Actual Result:

The system does not specifically identify the error in the expiration date during data entry. Instead, it allows the user to complete all fields and submit the form. Upon submission, a generic error message is displayed, requiring the user to start the entire process again.

### Expected Result:

The system should validate the credit card expiration date in real-time during data entry and immediately notify the user of the specific issue with the expiration date. This behavior should match the system's existing functionality for errors in the credit card number, which provides immediate feedback and specific error messages.

## Description

### Steps to Reproduce:

1. Open the link <https://shop.super-pharm.co.il/> and log in to your existing account using your email and password.
2. Click on your username in the top right corner
3. Click on "Update my details"
4. Scroll down and click on "גושך lifestyle הוסף כרטיס אשראי/כרטיס"
5. Enter an incorrect CVV code for a credit card.
6. Fill in the rest of the credit card details (e.g., card number, expiration date).
7. Submit the form.

### Actual Result:

The system does not specifically identify the error in the CVV code during data entry. Instead, it allows the user to complete all fields and submit the form. Upon submission, a generic error message is displayed, requiring the user to start the entire process again.

### Expected Result:

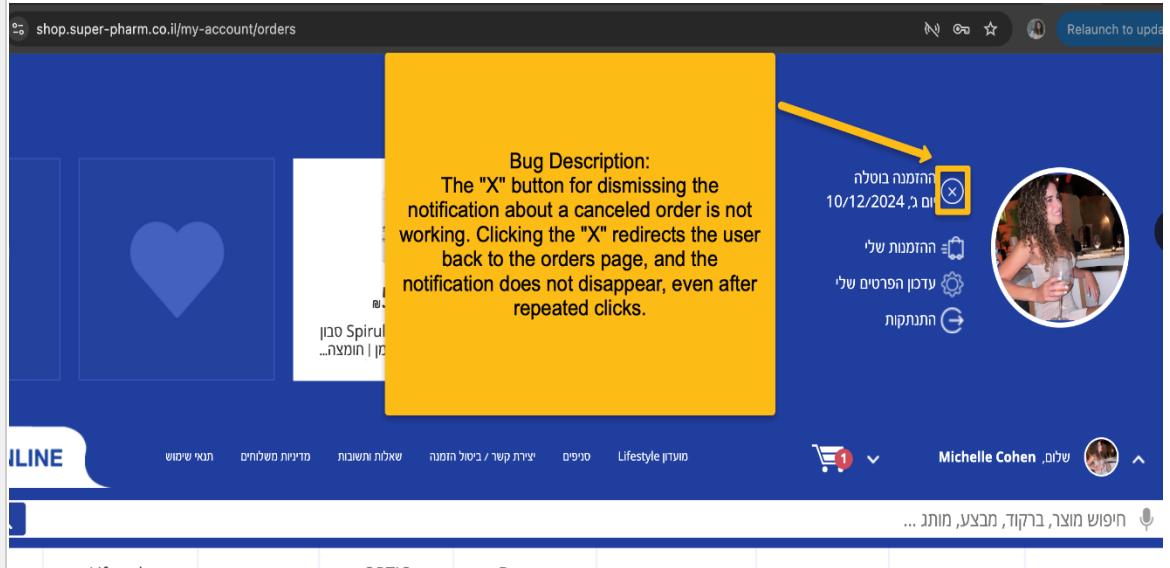

The system should validate the credit card CVV in real-time during data entry and immediately notify the user of the specific issue with the CVV. This behavior should match the system's existing functionality for errors in the credit card number, which provides immediate feedback and specific error messages.

**Attachments:**

In the "First Name" field, a sequence of 180 digits (777...999) was entered instead of letters. A similar input was made in the "Last Name" field. The system failed to validate the input and allowed the user to submit the form with invalid first and last names.

Severity:	S5 - Low
-----------	----------

## Description

### Steps to Reproduce:

1. Open <https://shop.super-pharm.co.il/>.
2. Click on the "Lifestyle" category.
3. Select the "Want to stay updated on all promotions?" feature located on the bottom left.
4. Access the registration page for receiving updates.
5. Enter only numbers in the "First Name" or "Last Name" fields (e.g., 777777) 180 digits.
6. Submit the form.

### Actual Result:

The system accepts the invalid input and allows form submission.

### Expected Result:

The system should reject invalid entries and display an error message prompting the user to enter valid names.

The screenshot shows a user interface for a promotional update. A yellow callout box contains the text: "I entered an email with a non-existent domain, and the system approved form submission." An arrow points from this text to a text input field containing "techunt@fffffffffffffjj.com". Below the input fields are several other fields: "cohen", "michal", "1111111111", and "0525568444". At the bottom right is a blue "שלח </" button. The page has a header with the Super-Pharm logo and navigation links like "Lifestyle", "OPTIC", "Beauty", "בית מרקחת", "קופהים", "מוצעים", "טగיות", and "טלפון". A sidebar on the left lists categories: "Lifestyle", "Biotonic", "OPTIC", "Beauty", "Pharmacy", "Coupons", "Deals", and "Phone". The URL in the address bar is "shop.super-pharm.co.il/lifestyle/update".

Severity:	S5 - Low
-----------	----------

## Description

### Steps to Reproduce:

1. Open <https://shop.super-pharm.co.il/>.
2. Click on the "Lifestyle" category.
3. Select the "Want to stay updated on all promotions?" feature located on the bottom left.
4. Access the registration page for receiving updates.
5. Enter an email address with a non-existent domain in the email field (e.g., test@invalid.domain).
6. Submit the form.

### Actual Result:

The system accepts the email and allows submission.

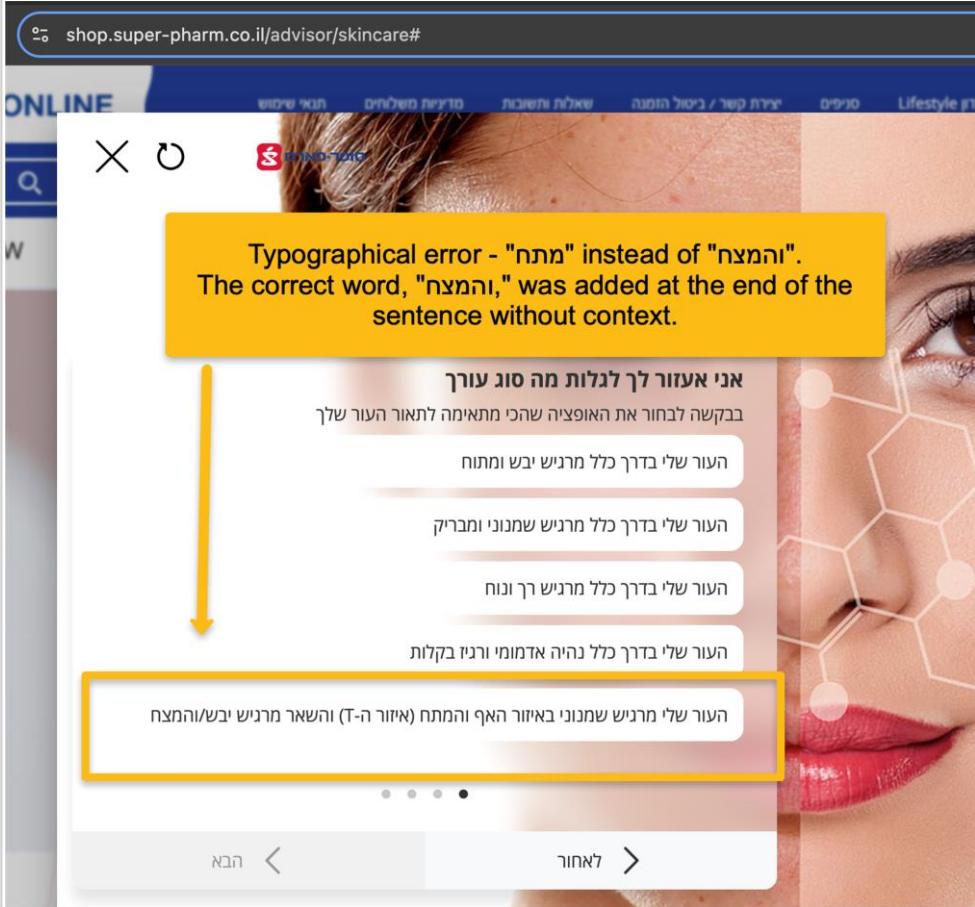

### Expected Result:

The system should reject the email and display a clear error message indicating the domain is invalid.

An orange arrow points from this callout to a specific line of text in a box at the bottom of the page.</p>
Severity:	S5 - Low

## Description

### Steps to Reproduce:

1. Open <https://shop.super-pharm.co.il/>
2. Click on the "Beauty" category.
3. Select the "Facial Skin Diagnosis" feature.
4. Click on "Diagnosis and Personalization."
5. Click on "Let's Start."
6. At the question "What is your skin type?", select "I don't know."
7. Review the options provided for skin type descriptions.

### Actual Result:

The issue appears in the last answer option, which reads:

*"My skin feels oily around the nose and the forehead (the T-zone), while the rest feels dry/and the forehead."*

This option contains spelling errors, grammatical mistakes, and an unnecessary repetition of "forehead" at the end.

### Expected Result:

The last answer option should be clearly and correctly phrased, without spelling or grammatical errors, and should read:

*"My skin feels oily around the nose and the forehead (the T-zone), while the rest feels dry."*
